“ John my therapist and his wife "Sweet Vicky" as my Mom Myrtle Gresham affectionately referred to as I offer my deepest condolences and I have been praying for the two of you. You all are wonderful people and my heart hurts so deeply that something so horrific and painful has occurred in your lives. Your lives will never be the same but I pray for strength for the two of you. No matter how nice people are they are never exempt from the storms of life. Not all storms are weather related. And the depth of this storm is immeasurable. On behalf of my sister, brother, and myself I would like to express our condolences to the both of you and our appreciation for your love and kindness shown to our mother during her final years of life and attending her funeral. Words cannot begin to express my sorrow but my heart shares both your tears and pain.
