“ *Soon after moving to Oklahoma in 1984 ,we rented a house across from Bud and Letta the house Letta was born in. we quickly became fast friends often shared meals, tried to keep up with Bud and Letta in the garden next to our home, but as you can imagine, they surpassed our ability. We shared many laughs and made lasting fond memories. We were just commenting how we can still hear Letta say, well.... She was a fine lady and friend, and will be greatly missed although we know she and bud are celebrating together.*
