“ I miss you so very much my brother. Those late nights delivering newspapers with you in the "wagon"....you, Jon and me playing into the wee hours at the Church. Laughing with you like I've never laughed before. Your humor, love, passion and outlook was infectious. Your musicianship has pushed me further than ever to become the best that I **COULD BE**. I've learned so much from you. I am a much better husband, father and overall person because of you. I love you always and you are always with me. You were and are always my best friend. I will see you soon with our precious lord Jesus Christ my brother. ❤️
