“ I had the pleasure of meeting Raymond in 1994 as a young manager of a local lumberyard. I would frequently call Raymond at Blanchard and visit about the lumber business and life. He was so kind with his time. He would sell me lumber at a price that I could sell my customers and make a little margin. I soaked up the knowledge of those conversations. Later on, life put me in the position to sell him material. He was always fair and had me feeling special whether he bought anything or not. He was a special person and Heaven has a wonderful person running cows and explaining to young angels how build those mansions in the sky. Peace be with you and let perpetual light shine upon you.
